Introducing Northline's latest test system. This is a Lenze designed and built product developed for a specific Comau application. The Lenze "8400 Protec" family of frequency inverters were developed for vertical and horizontal material handling applications, particularly scissor lifts and material handling in automotive manufacturing. This Inverter is suited for wall mounting with a pluggable connection system. Northline has the ability to repair and system tests this Frequency Inverter. Contact Northline with your specific "E84D" part number.

Capabilities Include:

8400 Protec Series
0.75W to 7.5kW
E84D XXXXXXXXXXXX

Lenze
As easy as that.

Contact your Northline sales representative for all of your repair needs.
