PLCs
Light Curtains
Inverter Drives
AC/DC Drives
Welders
Process Controls

This is Northline Industrial's latest robotic diagnostic system. Specifically designed for the fast paced automotive industry, SRA series robots will dramatically reduce cycle times, improve productivity, and achieve cost reductions. As one of the fastest robots in it's frame size, the SRA166 is ideally suited to spot welding applications. The SRA robots are highly rigid and light weight, providing faster motion and less vibration. Please turn to Northline to support component repair on your SRA166-01 FD11 robot. At Northline, our system testing philosophy makes sure your parts are going to be reliable and in working order every time.

Capabilities Include

Teach Pendant
FDTPFSJN-2M15

Drive unit
ROX222OCT

Logic Power Supply
L21720 / JH016

Power Control Module
FDPW10-10
